

ELLO Latchlock

Product Description

The ELLO latchlock brings a fresh, contemporary design to the traditional latchlock, and can also be used as a handle or knob lock. Secured with a padlock, the ELLO is extremely versatile and can be used on lockers, cabinets, general enclosures and other many other applications. With an attractive design, the ELLO is available in a variety of colours.

- Free wheel turning system
- Body and head made in ZAMAK
- Various fixing hole sizes (see drawing)
- Suited for padlock loops from 5mm - 8.5mm
- **Standard movement:** 01 (03 on request)
